

INFUSING BUSINESSES WORLDWIDE WITH EXCEPTIONAL TECH & CREATIVE TALENT

CORE TECHNOLOGY • ENTERPRISE • CREATIVE & DIGITAL

CONTRACT | FREELANCE | CONTRACT-TO-HIRE | DIRECT HIRE

Planet Technology is a global staffing and recruitment firm that specializes in sourcing top talent for roles within the Core Technology, Enterprise Systems, and Creative & Digital sectors. We go to great lengths to match the needs of our clients with candidates who provide technical solutions. Our holistic vetting process ensures our candidates have both the experience and interests designed to be a fit within your organization.

Our consultative approach to placement draws on our expertise within each discipline to ensure the highest level of service and identify experienced candidates. Our team of specialized technology recruiters spans a range of industries but maintains a singular focus: connecting top-shelf tech and creative talent with unique opportunities across the globe.

Vetting candidates for high-tech positions requires specialized knowledge. That's why each of our recruiters focuses on two or three core technologies. Such specialization gives us a knowledgeable perspective from which to evaluate candidates' backgrounds, skill sets, and experiences, while maintaining a robust network of qualified professionals for our clients.
